NEW PROFESSIONAL GST 250 PRUNING CHAINSAWS

The new **GST 250** pruning chainsaw is the perfect tool for all professional jobs. Reliable and suitable for an array of tasks, such as cutting at awkward angles and lopping in unusual positions (with the machine tilted or upside-down).

The new chainsaw offers an excellent combination of lightness, cutting power and flexibility of use. It is the ideal tool for all plant pruning jobs (fruit and olive trees in particular).

Engineering developments, improvements and several new features make this chainsaw:

- reliable
- sturdily-built
- easy to maintain
- light

in all types of operating conditions.

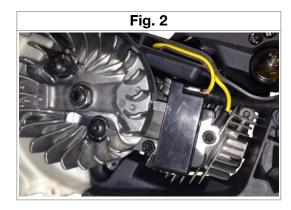

PERFORMANCE AND ENGINEERING SOLUTIONS

- **Professional engine** 25.4 cm³ two-stroke (EURO 2) rated a generous 1.3 HP (1 kW), guarantees top performance. Small, lightweight with a high cutting speed, the ideal machine for pruning, maintenance and minor cutting work.
- Piston with 2 rings, diecast cylinder with Nickel plating, forged con rod and crankshaft (Fig. 1): guaranteeing an extremely rugged and durable engine.

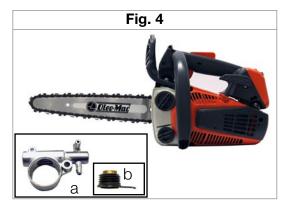

• Digital coil with electronic control (Fig. 2) and rev limiter: for easier starting, improved performance thanks to uniform combustion, and reduced fuel consumption.

• "ON-BOARD" clutch (Fig. 3) with drum and brake belt built into the crankcase: prevents ingress of foreign matter between the centrifugal weights ensuring consistently perfect operation, facilitates disassembly of the chain guard and simplifies cleaning and/or routine maintenance.

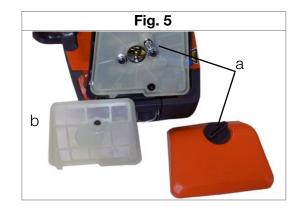

- 10"/25cm Stellite-tip carving bar (optional) is suitable for intricate work, tree surgery and tackling plant damage (Fig. 4).
- Automatic oil pump (Fig. 4a): driven by the clutch housing, delivers zero oil flow with the engine idling (reducing oil consumption and pollution).
- Plastic warm gear with brass bush (Fig. 4b).

PERFORMANCE AND ENGINEERING SOLUTIONS

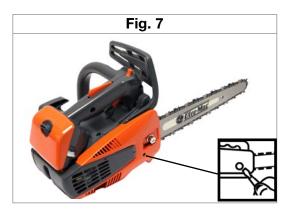

- Filter accessible without the need for tools: 1/4 just unscrew a knob (attached permanently to the cover to avoid beinglost) (Fig. 5a)
- A large nylon air filter and labyrinth pre-filter (Fig. 5b) offer excellent filtration, ideal for heavily dust-laden environments.

• "Easy On" easy starting: makes engine easier to start, without kickbacks, minimizing operator effort (Fig.6).

• Lateral chain tensioner for swift adjustment of chain tension in any operating position (Fig. 7).

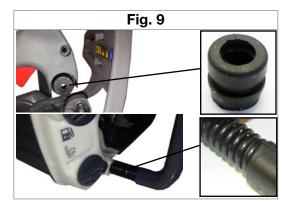

- Clearly visible **primer** device, ease of access and operation (Fig. 8a): facilitates starting from cold, after refuelling and following lengthy idle periods.
- Transparent tanks: for immediate display of the oil and fuel (Fig. 8b).

COMFORT

• Anti-vibration system using 1 spring damper and 2 rubbers stops: significantly isolates the operator from engine vibration, for greater comfort during use (Fig. 9).

- **Greater compactness** and **lighter weight** guarantee ease of handling and operation.
- Ergonomics and balance (Fig. 10), thanks to a designer of excellence (GIUGIARO DESIGN), the new chain saw pruning is distinguished by an excellent handling in any working position without operator fatigue.

• Ergonomic controls: all the controls are grouped together and easily accessible (Fig. 11).

• A special **steel hook foldable**, (Fig. 12) allows the operator to hang the chainsaw, from a belt or waistband while reaching for branches inaccessible to mechanical equipment.

TECHNICAL SPECIFICATIONS

MODEL		GST 250
ENGINE		
TYPE		Emak 2-stroke - EURO 2
DISPLACEMENT	cm ³	25,4
BORE	mm	34
STROKE	mm	28
IDLING SPEED RPM	rpm	3000 ÷ 3200
MAX NO LOAD SPEED (with bar/chain)	rpm	14500
POWER	HP/kW (rpm)	1,3 / 0,95 (9000)
MAX TORQUE	Nm (rpm)	1,1 (6500)
SPECIFIC FUEL CONSUMPTION	g/HP h (rpm)	400 (9000)
HOURLY FUEL CONSUMPTION	l/h (rpm)	0,66 (9000)
IGNITION SYSTEM		
TYPE		Capacitive electronic
SPARK PLUG		NGK CMR7A
FUEL & LUBRICATION SYSTEM		
CARBURETTOR		Walbro WT-1163
FUEL		2% (50:1)
FUEL TANK CAPACITY	ı	0,220
OIL PUMP		Automatic (gear driven) - Zero flow when idling - not adjustable
OIL RESERVOIR CAPACITY	ı	0,185
BAR AND CHAIN		
BAR LENGTH	in. (cm)	10" (25) sprocket - 10" (25) carving
CHAIN PITCH	in.	1/4" x 0.5" 58 links (sprocket) - 1/4" x 0.5" 60 links (carving)
CHAIN BRAKE		Inertia-activated
CHAIN TENSIONER		Lateral
N° SPROCKET TEETH		8 (sprocket) - 8 (carving)
SOUND PRESSURE EN 11681-1 - EN 22868	dB (A)	97,7
GUARANTEED SOUND POWER LEVEL 2000/14/EC EN 22868 - EN ISO 3744	dB (A)	111
VIBRATION LEVEL - (sprocket) EN 11681-1 - EN 22867 - EN 12096	(m/s²)	6.9 Sx – 8.8 Dx
VIBRATION LEVEL - (carving) EN 11681-1 - EN 22867 - EN 12096	(m/s²)	6.9 Sx – 8.2 Dx
ANTI-VIBRATION MOUNTS		1 spring damper and 2 rubbers
DIMENSIONS (excluding bar/chain)	mm	240x215x230
WEIGHT	kg	2,7
POWER-TO-WEIGHT RATIO	kg/kW	2,85

TREE CLIMBING TROUSERS

Safety

EN 381-5: 1995 type A Class 1 (20 m/sec.)

Approval CE, standards EN340 and EN 381-5: 1995 type A, Class 1, Category 2 PPE, able to resist a chain speed of 20 m/sec.

Protection zone

180° front, 5 cm right inside leg, 5 cm left inside leg.

Safety

Fit

- CE approval, standards EN340 and EN 381-5: 1995 type A, Class 1. · Category 2 PPE.
- Anti-rip protection RIPSTOP.
- Special 5-layer anti-cut protection (sofly).
- Protective anti-cut trousers specifically designed and produced for tree climbing. Extremely lightweight with breathable fabric. Slim fit thanks to the tri-elastic stretch fabric for the maximum comfort and exceptional
- Waterproofed with SOFIGUARD treatment. **Materials**

freedom of movement.

- 94% polyamide, 6% elastham (CORDURA RIPSTOP)
- Black reinforcement: 50% polyamide, 45% polyester, 5% elastham.

Practical

Anti-cut protection with "Sofly" technology: 5 layers of high-tenacity anti-cut fabric, extremely lightweight and flexible to guarantee: safety, low weight, a comfortable fit and freedom of movement. The antibacterial treatment and fast drying performance help to banish odours while enhancing the sensation of freshness and comfort for the wearer

LH leg pocket with zipper.

Tri-elastic stretch fabric for a close fit and freedom of movement. Elasticized waistband with 2 press stud fastener system to ensure a perfect fit.

Spark plug wrench pocket on LH leg.

2 front pockets and back pocket with zipper, braces buttons, 2 attachment rings, 2 belt loops, dorsal loop.

Large rear concealed zippers for a slim fit and the maximum comfort, also when worn in conjunction with boots.

Knee, crotch and rear in bi-elastic breathable fabric for the maximum freedom of movement ventilation.

SRM18R folding pruning

High carbon steel blade with a hard chrome coating that also provides anti-corrosion performance. Replaceable blade.

The teeth are ground on 3 planes and pulse hardened to create an extremely durable cutting edge.
