# FEATURES

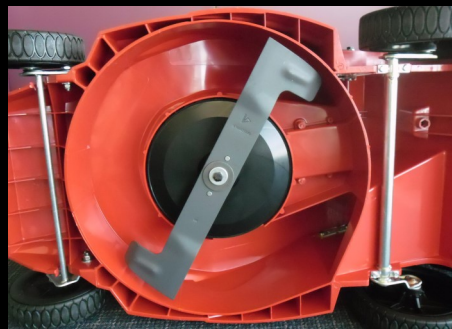

- Large capacity 70L vented catcher—resulting in the best grass catching mower on the market
- A comfortable handle that is easy to fold with strong fittings

- Multiple mowing height options—front and rear

- Unique under body fan to assist in cooling and grass catching

- Special "wing tipped" blade to lift grass and aid catching

- Lightweight ABS/ Composite material—light but durable
- Leaves less "track" impression on a damp or wet lawn
- Very manoeuvrable
- Various engine options
- Alloy blade hub system takes the stress off the engine crankshaft
- Used by lawn mowing contractors nationwide, never blocks
- Excellent parts availability
- Testarossa, made in Italy, will catch damp or wet grass par excellence!
- Zone controls with easy accessibility
- Test drive it in the rain
